

PRESENTING THE PROMISE OF SUSTAINABILITY & EXCELLENCE

EcoZen

Low carbon zinc

Asia's 1st Low-Carbon Green Zinc

Hindustan Zinc, a Vedanta Group company, is the world's second-largest integrated zinc producer and India's largest producer of zinc, lead, and silver. Recognized as the world's most sustainable metals and mining company by S&P Global CSA 2023, we are also a pioneer in eco-friendly production.

EcoZen
Low carbon zinc

Redefining Sustainability Across Industries

- Long-Lasting Building and Construction
- Strengthened Automobiles
- Enhanced Battery Storage
- Sustainable Crop Fertilization

Features

Groundbreaking Certification:

Asia's First-Ever Low-Carbon Special High-Grade Zinc

Exceptional Carbon Footprint:

Less than 1 tonne of carbon equivalent per tonne of zinc produced which is 75% lower than industry average

Global Recognition:

Certified through a comprehensive Life Cycle Assessment (LCA), cradle to gate approach by a renowned global sustainability firm

Low Carbon Eco-Friendly Advantage:

For customers looking to decarbonize their own and their customers' value chains
