HINDUSTAN ZINC CELEBRATES  
THE SPIRIT OF WOMENHOOD

**D**ear Zinc Parivar

This past month, we received a precious gift of time: an extra day courtesy of the leap year. This additional day presents an opportunity for each of us to go the extra mile in achieving excellence, efficiency, and improved performance.

The month also saw Hindustan Zinc achieve remarkable feats, including our CDP rating. Surpassing industry benchmarks in Asia and the global metal, smelting, and forming sector with A- leadership band scores for mitigating climate change and water security (as recognized by CDP) is a moment of immense pride for the entire Zinc Parivar. This achievement is further bolstered by our recognition among the Top 1% in the S&P Global Sustainability Yearbook.

Our unwavering commitment to integrating Environmental, Social, and Governance (ESG) principles across all operational aspects is reflected in our achievements on a global scale. Sustainability has become an integral part of our company ethos and operational practices, demonstrating our dedication to driving positive change and fostering a greener future.

Adding to these accolades, we were recently awarded the Platinum Winner title worldwide in the \$1-10 billion revenue category at the LACP (League of American Communications Professionals) Vision Awards. This recognition marks an "Outstanding Debut Achievement" for our 4th Integrated Annual Report, the first ever LACP Platinum Award for Hindustan Zinc. The report itself has been ranked an impressive 42nd globally with a near-perfect score of 99/100. As a window into our operations for investors and stakeholders, such awards highlight the effectiveness of our annual report in communicating the organization's functioning.

It also fills me with immense pride to celebrate the first-of-its-kind all women mine rescue team through 'Women of Valor'. This captivating brand film showcases the remarkable journey of India's first All Women Underground Mine Rescue Team and features seven dynamic women leaders who are breaking stereotypes in the male-dominated mining industry. The women rescue team is more than their gender; they are a movement and when it comes to safety, they can achieve what one cannot even imagine.

As we enter the final month of the fiscal year, I urge all members of the Zinc Parivar to give their best effort and push our goals to the next level. This is the time to showcase our capabilities and demonstrate to the world that we can outperform and make this year another significant milestone.

Best Wishes,  
Arun Misra,  
CEO – Hindustan Zinc

## We Believe in Investing in Sustainable Solutions For Our Communities

Vedanta's Hindustan Zinc (HZL), the world's largest zinc, lead, and silver producer, has achieved a global recognition by securing the first position in the S&P Global Corporate Sustainability Assessment 2023 in the metals and mining sector. With an impressive score of 85, Hindustan Zinc stands out as the top-ranked company among the 238 global peers in the sector. The parent company Vedanta Ltd. secured the third position globally, making HZL & Vedanta the only two Indian companies in global top 10 list in Metal & Mining sector.

At the helm of this ESG transformation is Priya Agarwal Hebbat, Chairperson, Hindustan Zinc Ltd., Non-Executive Director, Vedanta Ltd & Anchor of The Animal Care Organization (TACO). She spoke to Outlook about Sustainability, what it means at Vedanta, spreading the power of good and more. Excerpts of the interview.

**Q How excited are you about the S&P global sustainability assessment result?**  
We are very proud of our remarkable performance. Our improved ranking in the prestigious global assessment is a testament to our commitment towards building a sustainable future. We continue to march towards this transformative journey, creating global benchmarks in our industry. Our colleagues, supply partners and investors, who are all a part of the

unique support system, play a vital role in helping us accomplish our target of being Net Zero Carbon by 2050.

**Q What are your thoughts on sustainability?**  
I am of the firm belief that sustainability is not an option but a necessity, and it should be embedded in every facet of our lives and businesses. At Vedanta, we have always believed in operating responsibly and ethically to create a

## Zinc of India, Built for India, Made In India - Hindustan Zinc embodying the spirit of Make In India

By Arun Misra, CEO, Hindustan Zinc, Added 21 February 2024

The article focuses on Hindustan Zinc's crucial role in not only meeting India's demand for Zinc but also in reducing imports.

Kautilya's classic treatise 'Arthshashtra' states, "Mines and Minerals are the source of a treasury, from which flows the power to the state." Even today, minerals and metals such as zinc, play a crucial in industrial and economic growth, impacting both human health and all living organisms. This is the story of the fourth most used metal worldwide, made in India, embodying the spirit of 'Make in India.'

Namaste Zinc Parivar,

As we conclude the month of February, we are thrilled to share significant milestones achieved by Hindustan Zinc, marking triumphs in sustainability, corporate leadership, and the celebration of diversity.

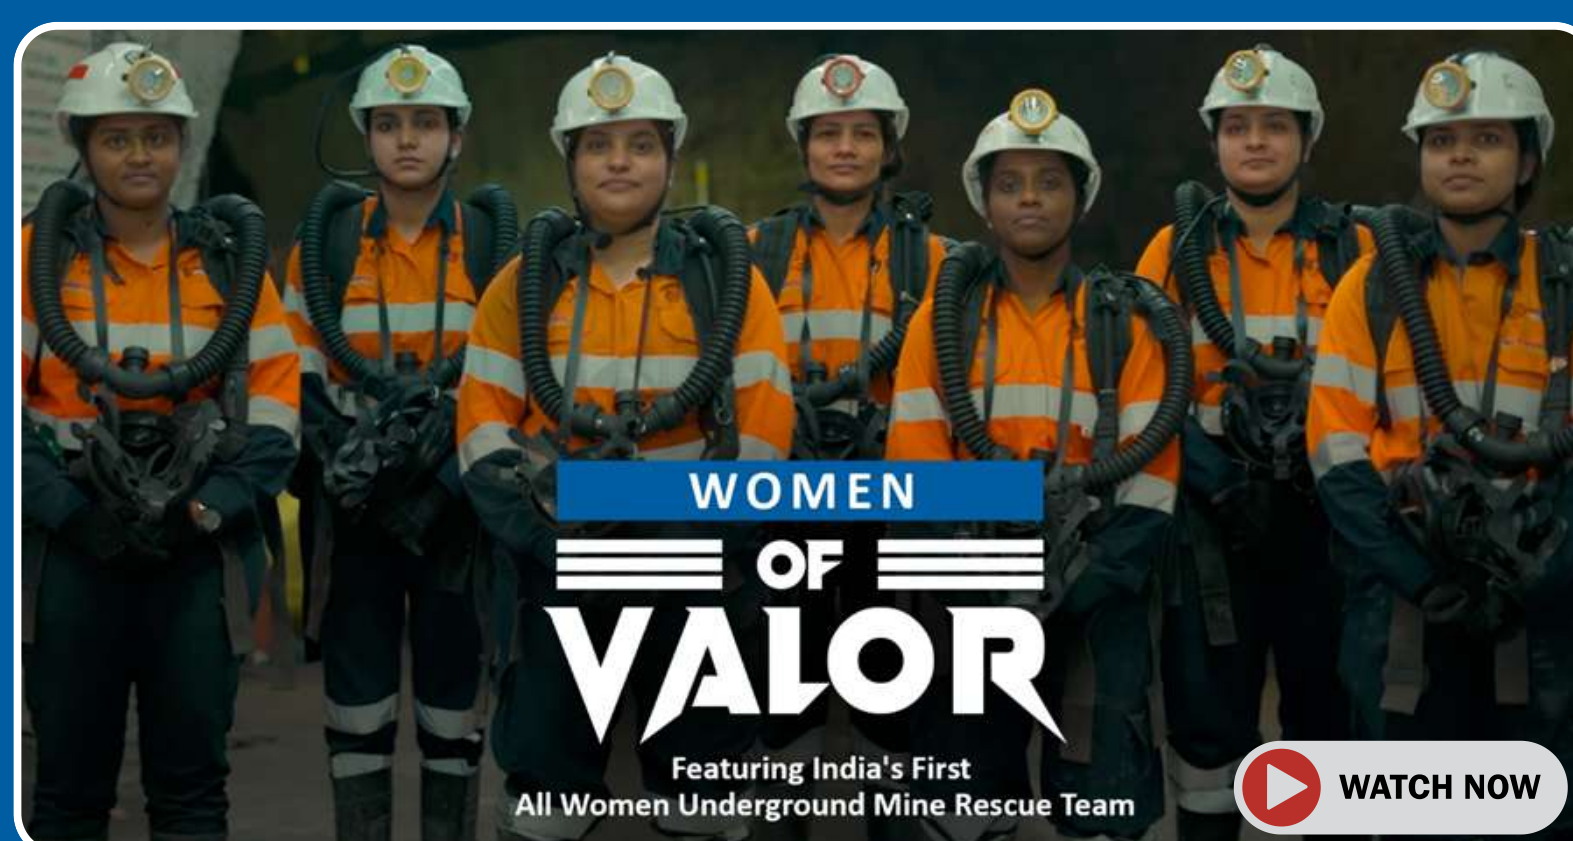

In a resounding testament to our commitment to sustainable practices and corporate transparency, Hindustan Zinc has been featured in the esteemed top 1% of the S&P Global Sustainability Yearbook & also bestowed with a remarkable leadership band score of A- by the Carbon Disclosure Project (CDP). This recognition reaffirms our dedication to environmental, social, and governance (ESG) principles, placing us among the top companies leading the charge for a greener and more sustainable world.

Since the beginning of this year, our focus has remained firm on both #WomenInHZL and Inclusivity and as we embark on the month that celebrates women worldwide, we are proud to launch our new brand film - #WomenOfValor. The movie features India's first-ever all-women underground mine rescue team shattering stereotypes. Watch the film and do share your thoughts with us on the comments section.

I hope you enjoy reading about our diverse range of campaigns that we have curated to reach out to you and involve you in the process.

Happy Reading!
